More Idols are coming to town

And the winner is Melissa O'Neil and Rex Goudie!

Last year Kalan Porter rocked Chapleau with his commanding performance. This year Melissa O'Neil

and Rex Goudie are sure to have everyone up on their feet on Saturday July 15th, 2006.

This duo is one of the three featured performers for this year's Festival which will take place from

July 12th to the 16th.

After all 551 eligible ballots were counted, it was obvious that Melissa O'Neil and Rex Goudie were the favorites of the residents of Chapleau with a total of 231

votes. In second place was Stompin Tom with 137 votes followed by Amanda Marshall and Tom Cochrane.

Thursday and Friday nights performances are expected to be a real treat as well. La Volée d'Castors, on the heels of the release of their fifth album Y'a du Monde à Messe, will be our first performers for our Thursday night concert. In 2005 they

were nominated for a Juno Award for Best Roots and Traditional Album.

Lawrence Martin and Vern Cheechoo, winner of a Canadian Aboriginal Award, will be ending our Friday's events with what is sure to be an unforgettable concert. Martin and Cheechoo have been nominated for Best Music of Aboriginal Canada for their album

"The Right Combination", an album of catchy tunes and ballads. As in previous years we are expecting a large crowd to be delighted by our Fiddle and Step Dancing competitions

Festival passes will be on sale as of March 20th, 2006. They are priced at \$35 before June 5th at which time the price will increase to \$40.

Look who is turning 90

John Way-White

To celebrate John's 90th Birthday, it is with pride that his son Terry and his family invite you to join John for a visit on Saturday March 11, 2006. Drop in between the hours of 1:30 P.M. and 3:30 P.M. at the dining room of Cedar Grove Residence in Chapleau to have a chat and a cup of tea. John was born March 8th, 1916 in India and immigrated with his parents to Chapleau in 1923. He has spent all of his life in Chapleau other than a few years in his twenties.

Le Carnaval est arrivé dans notre école

? Un peu d'histoire pour commencer...

L'histoire du Carnaval c'est une affaire francophone et il tire ses origines de la Nouvelle-France. Avant de commencer le Carême, à la Mardi Gras, les habitants se réunissaient pour fêter!

Actuellement, le mot "carnaval" signifie "mardi gras"... Le Carnaval de Québec est le plus grand carnaval d'hiver au monde avec Bonhomme Carnaval qui représente l'événement...

Le jeudi 2 mars, les étudiants et le

personnel de Trillium se sont rendus à Kamiskotia pour célébrer leur Carnaval d'hiver. L'autobus a décollé à 7h30 et vers 10h tout le monde était sur les pentes!

L'enthousiasme était à son comble! Il y avait plein d'activités! Certains ont choisi de faire du ski alpin, d'autres de la planche à neige. Une activité vraiment populaire était le "tube"!

Dans le chalet il y avait des activités et des jeux d'organisés mais tout le monde était sur les pentes. Au

son de la musique, des odeurs de chocolat chaud et de chiens chauds tous s'amusaient!

À la fin de la journée tous sont revenus à Chapleau fatigués mais très satisfaits de leur

journée. Un gros merci au Conseil des étudiants, surtout à Sarah Doyon et Matthieu Desbois qui ont organisé cette journée. C'était bon d'être en plein air et de s'amuser! Allez-y les Coyotes! Carpe Diem!

 Approved 2006-2007 Annual Work Schedule
 Pineland Forest**

The Chapleau District of the Ontario Ministry of Natural Resources (MNR) has approved the Domtar Inc. 2006-2007 annual work schedule (AWS) for the Pineland Forest Management Unit. The annual work schedule will be available for inspection at the ministry's Chapleau District Office, the Gogama Area Office and Domtar Inc. Office (see address below) beginning March 15, 2006.

The AWS describes the forest management activities (e.g. road construction and maintenance, timber harvesting, renewal and tending) that are scheduled to occur on the Pineland Forest between April 1, 2006 and March 31, 2007.

These activities are consistent with the approved Crown Forest Sustainability Act Exemption Order and will be consistent with the 2006-2026 Pineland Forest Management Plan.

The following are some of the operations that are scheduled on the Pineland Forest that may be of particular public interest: harvesting, road construction and maintenance, site preparation, tree planting, aerial application of herbicides, slash pile burning and regeneration assessments.

Domtar Inc. is responsible for tree planting on the Pineland Forest. Please contact Domtar Inc. directly for information regarding tree planting job opportunities.

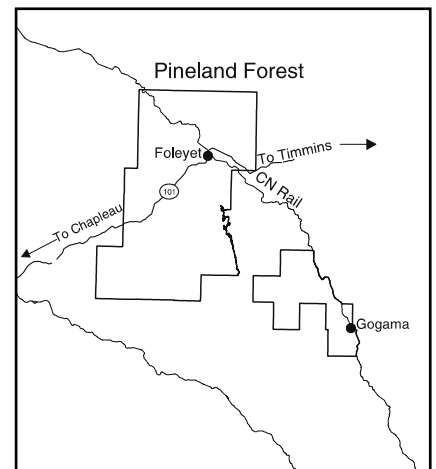

For information on the locations of and licence requirements for obtaining fuelwood for personal use, please contact the MNR Chapleau District or the Gogama Area Office. For commercial fuelwood opportunities, please contact Domtar Inc.

The approved annual work schedule and any subsequent revisions will remain available for public inspection throughout the one-year duration of the AWS. For further information on the annual work schedule and requests to obtain an annual work schedule operations summary map, please contact:

March Break Activities at the Chapleau Ski Club

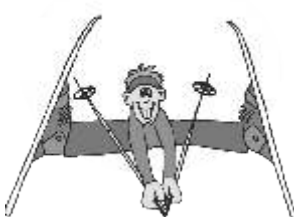

Are little Suzie and Mikey bored? As a parent, are you thinking about activities for your kids during the March Break? Well, the Chapleau Ski Club may be the answer to the "There's nothing to do" syndrome that affects many kids during the break.

In addition to regular hours, the ski hill will be open

weekdays from 1:00 p.m. to 4:00 p.m., weather permitting. As well, to cap off another great season, Wednesday will be \$5 ski pass day. For those that are not members, this is a great occasion to try skiing or snowboarding and have fun. Come on out and play and eat with your friends on Wednesday. We'll be selling hot dogs at the chalet.

For children and students who are not members, you will be able to purchase a March Break ski pass for \$50 for Monday March 13th to Sunday March 18th inclusively. Please

note that this fee is non-refundable. If an entire week of skiing is not an option, we will be offering rebates on our day and night passes for non-members. The rates are as follows: Monday, Tuesday and Sunday \$15, Wednesday \$5, Thursday, Friday and Saturday \$20. Please note that the hill will be open to children and students Thursday night. Come on out and have some fun!

February 24, 2006 Tembec Chapleau Sawmill Achieved ISO 14001-2004 Certification

ISO 14001:2004 is the internationally recognized standard for environmental management systems, providing guidance on how to manage the environmental aspects of an organization's activities, products and services more effectively, while taking into consideration environmental protection, pollution prevention, and socioeconomic needs. The ISO 14001 standard specifies requirements for establishing an environmental policy; determining environmental aspects and impacts of products, activities and services; planning environmental objectives and measurable targets; implementation and

operation of programs to meet objectives and targets; checking and corrective action and management review. Registration to the standard enhances environmental performance and compliance to legislated requirements is designed to reduce environmental liability exposure, provide a dynamic structural mechanism for quality environmental management, and increase customer confidence that environmental risks associated with products or services purchased are effectively managed. Carole Hebert, EMS coordinator said, "The standard fits well in Tembec's Environmental Management Program (Impact

Zero) and the other program we currently run onsite. Having moved forward with this certification has helped to build on the solid foundation the Chapleau sawmill already had. All Tembec Chapleau Sawmill employees have and will continue to play a role as we work to maintain this certification. Everyone should be proud as we minimize or eliminate our impact to the surrounding environment" "We are very pleased to announce this certification as a demonstration of Tembec Chapleau Sawmill's commitment to environmental protection and positive corporate citizenship," said Mike Martineau,

Human Resources Superintendent. "I am very proud of the work led by our team that resulted in a successful certification to an internationally recognized environmental standard" Once again, the Tembec Chapleau mill has set the bar for other locations to follow. said Mel Jones, General Manager FPG. This certification strengthens our competitive position and underscores our commitment to serving our customers and our community with the highest level of excellence." Congratulations, to all Tembec's employee's for their contributions in attaining this prestigious achievement.

Lindsay shot up because she always said that she'd try anything once.
Today she's trying to live with hepatitis C.

Thousands of people across Ontario have been infected with hepatitis C from unsterile equipment used for drug use, piercing and tattooing. Although symptoms may not show up for years, you will eventually get sick. And you can pass it on to someone else. So ask your doctor about getting tested. Healthy Food Facts: Why do we need Omega-3?

By J. Caroline Carroll

"Omega-3 is called an "essential" fatty acid, so it certainly sounds like we should know exactly what it is – and as importantly, we want to know where to get it in the foods we give our families. "Omega-3 fatty acids are a type of polyunsaturated fat, known as the 'good fats', and are important for good health," says Sue Mah, a Toronto-based registered dietitian. "Research tells us that omega-3 fats can reduce blood clotting, control inflammation, and lower the risk of heart disease." "Omega-3 fatty acids are called 'essential' because our bodies can't make them, so we need to get them from the foods we eat," Mah continued, "The problem is that most of us probably aren't getting enough omega-3 fats." There are two sources of

Omega-3 fatty acids:
 • Animal Source: Almost exclusively in fish, especially fatty fish such as salmon, rainbow trout and mackerel.
 • Plant Source: Walnuts, canola and soybean oil all contain omega-3 fats. Flax seeds and flax seed oil are one of the best plant sources of omega-3 fat. "A daily intake of 1.1 g to 1.6 g of Omega-3 is recommended by health experts," says Sandra Kim at Ronzoni Foods Canada, makers of Catelli pasta, a brand name that offers 12 varieties of whole grain pasta in their Healthy Harvest line. "A serving of our Flax Omega-3 Pasta provides as much as 0.8 g of Omega-3 – and at wholegrainpasta.ca several tasty recipes for flax and other pasta varieties are at your fingertips. News Canada

Public Notice

Approved 2006/2007 Annual Work Schedule Algoma Forest

The **Ontario Ministry of Natural Resources (MNR)** has approved the 2006/2007 annual work schedule (AWS) for the **Algoma Forest**, located in the ministry's Sault Ste. Marie and Wawa administrative districts.

The annual work schedule describes the forest management activities (e.g. timber harvesting, road construction and maintenance, site preparation, tree planting and tending) that may occur on a particular area between **April 1, 2006 and March 31, 2007**.

Public consultation has contributed to the development of the forest management plan for this forest, and therefore this process has not been repeated during the development of the annual work schedule. The ministry has reviewed the annual work schedule to ensure that it is consistent with the approved forest management plan.

A mapped summary of scheduled forest management operations is available (at a nominal cost) upon request from the ministry's Sault Ste. Marie District Office or Clergue Forest Management Inc. for the Algoma Forest.

The **removal of bridge and culvert structures** on some forest access roads on the Algoma Forest may occur during the period of April 1, 2006 to March 31, 2007.

The **prescribed burning of slash piles** has been scheduled for some areas of the Algoma Forest commencing in October 2006.

Aerial application of herbicide has been scheduled for chemical site preparation and as the tending method for some areas (located in the Administrative District of Wawa) on the Algoma Forest commencing in August 2006. **Ground application of herbicide** has also been scheduled as a tending method on some areas of the Algoma Forest commencing in August 2006.

Tree planting has been scheduled for some areas of the Algoma Forest commencing in May 2006.

For information about the availability of personal-use fuelwood, please contact Clergue Forest Management Inc. or the ministry office at the addresses below.

Any contentious areas resulting from a request for an individual environmental assessment, received by the Ministry of Environment during the public inspection period for the approved 2005-2025 Algoma Forest Management Plan, will be removed from this approved annual work schedule before implementation.

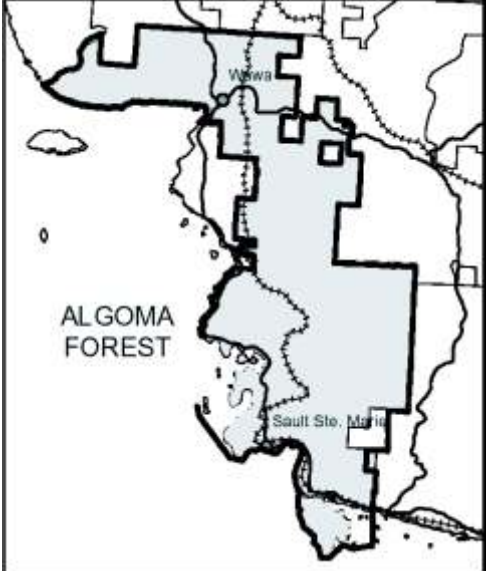

The annual work schedule and any subsequent revisions to the AWS, is available for inspection during normal office hours at the addresses below beginning March 16, 2006 and throughout its one year term, April 1, 2006 to March 31, 2007.

For further information on the annual work schedule for the Algoma Forest, please contact **Gary Raines**, Management Forester, at the ministry's Sault Ste. Marie District Office at **705-949-1231, ext. 244** (e-mail: gary.raines@mnr.gov.on.ca) or **Tim Reece**, Planning Forester, Clergue Forest Management Inc. at **705-942-7706** (e-mail: tim.reece@clergue.com).
